PH OPPORTUNITIES

FACTSHEET – JANUARY 2022

INVESTMENT OBJECTIVE

PH Opportunities is our portfolio of special investment opportunities, holding companies that are undervalued, depressed by external conditions (such as the Covid 19 restrictions), investing in new technology and distribution, plus other appropriate and compelling factors that create investment opportunities.

It is designed as a medium to long term investment strategy for investors, with the underlying holdings being fully managed internally to ensure we exit holdings upon hitting price targets and use the proceeds to reinvest in future opportunities that are in line with the original investment mandate.

In many ways PH Opportunities take off where the highly successful PH Recovery left, with a wider investment remit and ongoing stock replacement where appropriate to create a medium to long term investment strategy.

Intelligent Money is responsible for all investment management oversight, strategy and stock selection of PH Opportunities and appoints (and amends when it sees fit) a dedicated Discretionary Fund Manager to implement this strategy and run the underlying investment mandate on a day-to-day basis.
